AFTERNOON AT LEISURE

AFTERNOON OPTIONAL ACTIVITY FOR ALL MEMBERS, SPOUSES AND GUESTS

1:00 pm – 5:45 pm | Napa Valley “Behind the Vines” Winery Tour and Lunch                  |                        |
|                 | *(Pre-Registration and Fee Required)*                                |                        |

We will depart from the parking lot outside the Market Bakery at 1:15 pm SHARP!

The “Behind the Vines” tour is a wonderful introduction to Napa Wine Country featuring winery tours and tastings. Our Verve Napa Valley host will discuss the unique Napa Valley climate and outline the path that the grapes take from vine to glass. We visit two carefully selected wineries that complement each other to provide a rich experience. Enjoy a Napa-style wine-paired lunch at the first winery, where you will be immersed in the culture of California grape growing and winemaking. Learn to trust your own palate and confidently judge the wines you taste.

EVENING ACTIVITY FOR ALL MEMBERS, SPOUSES AND GUESTS

6:00 pm – 7:30 pm | Wine and Cheese Reception Honoring New Members                        | FAIRWAY DECK           |
|                 | **Dress: Casual**                                                    |                        |

**Friday Executive Session:**
- **Robert Brodell, MD, Secretary-Treasurer**

**First Scientific Session:**
- **“Should Topical Imiquimod Be Used to Treat Positive Margins in Lentigo Maligna?”**
  - **Timothy Wang, MD; Jeremy Bordeaux, MD**
- **Which Type of Liposuction Works Better – Standard Tumescent Liposuction or CoolSculpt?**
  - **Kimberly Butterwick, MD; Lisa Donofrio, MD**
- **Should Topical Skin Care Products be Dispensed in a Dermatologist’s Office?**
  - **Elizabeth McBurney, MD; Patricia Farris, MD**

**Editors’ Choice—Game Changing Articles from the Derm Journals**
- **JAAD: Bruce Thiers, MD**
- **JAMA Derm: June Robinson, MD**
- **Derm Surg: Desiree Ratner, MD**
- **JID: Anthony Oro, MD**
Lloyd B. Minor, MD, is a scientist, surgeon, and academic leader. He is the Carl and Elizabeth Naumann Dean of the Stanford University School of Medicine, a position he has held since December 2012. He is also a professor of Otolaryngology–Head and Neck Surgery and a professor of Bioengineering and of Neurobiology, by courtesy, at Stanford University.

As dean, Dr. Minor plays an integral role in setting strategy for the clinical enterprise of Stanford Medicine, an academic medical center that includes the Stanford University School of Medicine, Stanford Health Care, and Stanford Children’s Health and Lucile Packard Children’s Hospital Stanford. He oversees the quality of Stanford Medicine’s physicians on the faculty and in the growing clinical networks and physician practices.

With Dr. Minor’s leadership, Stanford Medicine has established a strategic vision to lead the biomedical revolution in Precision Health. Empowering people to lead healthy lives, Precision Health is a fundamental shift to more proactive and personalized health care. Stanford Medicine is driving this transformation by leveraging the art and science of medicine to predict and prevent disease before it strikes and cure it decisively if it does.

Recognizing the importance of fundamental research and Stanford’s extraordinary strengths in scientific discovery, Dr. Minor has provided significant support for basic science research and for clinical and translational research at Stanford. Through bold initiatives in medical education and increased support for PhD students, Dr. Minor is committed to inspiring and training future leaders.

Among other accomplishments Dr. Minor has led the development and implementation of an innovative model for cancer research and patient care delivery at Stanford Medicine and has launched an initiative in biomedical data science to harness the power of big data and create a learning health care system. Committed to diversity, he has increased student financial aid and expanded faculty leadership opportunities.

Before coming to Stanford, Dr. Minor was provost and senior vice president for academic affairs of The Johns Hopkins University. During his time as provost, Dr. Minor launched many university-wide initiatives such as the Gateway Sciences Initiative to support pedagogical innovation and the Doctor of Philosophy Board to promote excellence in PhD education. He worked with others within the University and health system to coordinate the Individualized Health Initiative, which aimed to use genetic information to transform health care.

Prior to his appointment as provost in 2009, Dr. Minor served as the Andelot Professor and director (chair) of the Department of Otolaryngology–Head and Neck Surgery in The Johns Hopkins University School of Medicine and otolaryngologist-in-chief of The Johns Hopkins Hospital. During his six-year tenure, he expanded annual research funding by more than half and increased clinical activity by more than 30 percent, while strengthening teaching efforts and student training.

With more than 140 published articles and chapters, Dr. Minor is an expert in balance and inner ear disorders. Through neurophysiological investigations of eye movements and neuronal pathways, his work has identified adaptive mechanisms responsible for compensation to vestibular injury in a model system for studies of motor learning (the vestibulo-ocular reflex). The synergies between this basic research and clinical studies have led to improved methods for the diagnosis and treatment of balance disorders. In recognition of his work in refining a treatment for Ménière’s disease, Dr. Minor received the Prosper Ménière Society’s gold medal in 2010.

In the medical community, Dr. Minor is perhaps best known for his discovery of superior canal dehiscence syndrome, a debilitating disorder characterized by sound- or pressure-induced dizziness. In 1998 Dr. Minor and colleagues published a
In 2012, Dr. Minor was elected to the National Academy of Medicine, formerly the Institute of Medicine.

10:05 am  Q and A

10:20 am – 11:00 am  HPV—The Virus and the Vaccine and Potential Impact on Global Medicine
  Douglas Lowy, MD, Lifetime Achievement/ADA Gold Medal Award Recipient

A cancer researcher for more than 40 years, Dr. Lowy received the National Medal of Technology and Innovation from President Obama in 2014 for his research that led to the development of the human papillomavirus (HPV) vaccine. As chief of the Laboratory of Cellular Oncology in the Center for Cancer Research at NCI, Lowy’s research includes the biology of papilloma viruses and the regulation of normal and neoplastic growth. His laboratory, in close collaboration with John T. Schiller, Ph.D., was involved in the initial development, characterization, and clinical testing of the preventive virus-like particle-based HPV vaccines that are now used in the three U.S. Food and Drug Administration-approved HPV vaccines.

Dr. Lowy is a member of the National Academy of Sciences (NAS), as well as the National Academy of Medicine (formerly the IOM). For their pioneering work, Lowy and Schiller have received numerous honors in addition to the National Medal, including the Federal Employee of the Year Award in 2007 from the Partnership for Public Service, the 2011 Albert B. Sabin Gold Medal Award, and the 2017 Lasker-DeBakey Clinical Medical Research Award.

Lowy received his medical degree from New York University School of Medicine, New York City, and trained in internal medicine at Stanford University, California, and in dermatology at Yale University, New Haven, Connecticut.

11:05 am – 11:25 am  Break for Members, Spouses and Guests
  FAIRWAY DECK

11:25 am – 12:50 pm  Alopecia and Hair Disorders
  Session Moderators: Wilma Bergfeld, MD; Jerry Shapiro, MD
  SILVERADO BALLROOM

11:25 am  New Therapeutic Approaches for Alopecia Areata
  Invited Speaker—Angela Christiano, PhD

Angela M. Christiano, PhD, is the Richard and Mildred Rhodebeck Professor of Dermatology and Professor of Genetics and Development at Columbia University Medical Center. She is also the Vice Chair of Research in the Department of Dermatology at CUMC. For the past 20 years, Dr. Christiano’s research has focused on understanding the molecular processes that lead to inherited skin and hair disorders in humans. Her research career began with the discovery of genetic mutations associated with epidermolysis bullosa, a skin disease that causes severe blistering. Dr. Christiano’s recent work has focused on the investigation of the underlying genetic causes of and identification of potential therapies for alopecia areata, an auto immune form of hair loss. She has published more than 300 papers in peer-reviewed journals and has trained more than 50 postdoctoral researchers and clinical fellows at Columbia University through the Program in Genetics & Development; the Institute of Human Nutrition; the Integrated Program in Cellular, Molecular and Biomedical Studies in the Graduate School of Arts & Sciences; the Clinical and Translational Science Award Program, and the Stem Cell Training Program. Dr. Christiano has received numerous awards, including the New York City Mayor’s Award for Excellence in Science and Technology – Young Investigator’s Award, Columbia University’s Harold and
Golden Lamport Research Award for Excellence in Clinical Sciences, the CERIES Research Award, the North American Hair Research Society’s Award for Outstanding Paper of the Year, the Montagna Award from the Society for Investigative Dermatology, and the Ebling Award from the European Hair Research Society. Dr. Christiano is Immediate Past President of the Society for Investigative Dermatology and served as Deputy Editor of the Journal of Investigative Dermatology for ten years. In addition, Dr. Christiano is a prolific inventor and serial entrepreneur, having filed numerous patents on her discoveries, and successfully moved technologies from the academic setting into the commercial sector. She has co-founded several companies in the dermatology space, including Skinetics Bioscience (RNAi-based dermatology therapeutics, acquired by Sirna Therapeutics, which was then acquired by Merck & Co. in 2007), Vixen Pharmaceuticals (JAK inhibitors for treatment of hair disorders, acquired by Aclaris Therapeutics in 2016), and Rapunzel Bioscience, which focuses on regenerative therapies and stem cell approaches for skin and hair disorders. She earned her M.S. and Ph.D. degrees in Microbiology and Molecular Genetics from Rutgers University.

11:55 am  AGA and PRP  
Jerry Shapiro, MD  

SILVERADO BALLROOM

12:10 pm  Treatment of Cicatricial Alopecia-Results of Outcome Studies  
Wilma Bergfeld, MD  

12:25 pm  Ethnic Hair Issues  
Valerie Callender, MD  

12:40 pm  Q and A  

12:50 pm  Session Adjourns

OPTIONAL MORNING ACTIVITY FOR SPOUSES/GUESTS ONLY
(Pre-registration and Fee Required)

9:00 am – 12:00 pm  The diRosa Collection  

The bus will depart promptly at 9:00 am from the bus loading area located across the grass circle from the front entrance, next to The Market.

Our Verve Napa Valley host will escort this Art Tour featuring the diRosa Collection (www.dirosaart.org). Set on over 200 acres of extraordinary vineyards, gardens, and natural landscape in the Carneros Region, the diRosa Collection is considered the most significant holding of contemporary Bay Area art in the world, with approximately 2,000 works of art by more than 800 artists. This docent-led tour of the property includes the First Gallery, Second Gallery and the Courtyard. A docent will meet the group at the First Gallery, which houses several pieces of the permanent collection as well as a visiting exhibition titled Be Not Still: Living in Uncertain Times. The docent will speak about diRosa’s life and analyzes specific pieces of artwork throughout the tour. A tram will transport the group between galleries and back to the entrance. Weather permitting, we will walk around the grounds and explore the Courtyard with its beautiful sculptures.
FRIDAY, NOVEMBER 9, 2018 (continued)

AFTERNOON AT LEISURE

AFTERNOON OPTIONAL ACTIVITY FOR MEMBERS, SPOUSES AND GUESTS

1:00 pm – 5:00 pm  Napa Valley Bike Tour with Winery Visit and Lunch
SPUSES AND GUESTS WILL BE FITTED FOR THEIR BIKES AT 12:30 PM SHARP!!
(Pre-Registration and Fee Required!)
MEET IN SPA PARKING LOT

Our private group will be hosted by a team of knowledgeable, local tour guides, all of whom possess engaging personalities as well as an inside scoop on local happenings and the Valley’s history.

This is a leisurely ride designed to be fun, enjoyable, and most importantly, inclusive of everyone in our group; you will truly be able to relax and experience the wine country with all five senses! You’ll pedal about nine miles throughout the day along mostly flat, paved roads in the beautiful Stags Leap District. Please note that there is a gently rolling hill immediately upon departing Silverado which can be challenging for those who do not ride bikes frequently. Do not hesitate to walk your bike for the short uphill distance.

Our tour will include a visit to Andretti Winery for a tasting and delicious wine country picnic lunch.

Concluding the experience at Andretti Winery, the group will bicycle back to the resort.

A limited number of people may ride back via a shuttle service instead of riding a bike back to the hotel.

1:00 pm  ADA Golf Tournament (includes box lunch)
SILVERADO NORTH COURSE
(Pre-Registration and Fee Required!)

Silverado’s two championship golf courses stand as a hallmark of the Napa Valley golf experience. Both courses feature water crossings, elevation changes and routing through historic oak trees. We will be playing the North Course, which was renovated by Johnny Miller in 2013. The challenge, visual sensation, and special ambiance of Silverado set the standards by which all other golf courses in the area are measured.

**Jaehyuk Choi, MD, PhD**

Jaehyuk Choi, MD, PhD, is the Ruth K. Freinkel Assistant Professor of Dermatology and of Biochemistry and Molecular Genetics at Northwestern University Feinberg School of Medicine in Chicago, IL. He is a physician scientist with a clinical and research focus on skin cancers, particularly skin lymphomas. Clinically, he is the medical director of the Extracorporeal Photopheresis Unit. In addition, he is an integral part of the multidisciplinary teams that care for patients with cutaneous lymphoma, Merkel cell carcinoma, and melanoma at Northwestern Medicine. Scientifically, Dr. Choi has utilized next generation sequencing to elucidate the genetic basis of multiple diseases including cutaneous T cell lymphoma, cutaneous B cell lymphoma, Merkel cell carcinoma, hypereosinophilic syndrome, and melanoma subtypes. Some of these efforts have led to novel therapeutic strategies that are targeted to specific pathways that he found were dysregulated in patients. He graduated Suma Cum Laude from Harvard University with a degree in Biochemistry. He attended Yale University School of Medicine and received his MD degree with election to AOA and a Cum Laude Ph.D. degree in immunobiology. He completed his internship and dermatology training at Yale and did his post-doctoral fellowship there in the Department of Genetics. Since arriving at Northwestern in 2015, he has authored or coauthored over 21 publications and has received a number of prestigious national awards including the AAD Young Investigator of the Year Award, ASCI Young Physician Scientist Award, the Damon Runyon Clinical Investigator Award, the Doris Duke Clinical Scientist Development Award, and the NIH New Innovator Award.
AFTERNOON AT LEISURE

AFTERNOON OPTIONAL ACTIVITY FOR MEMBERS, SPOUSES AND GUESTS
(Pre-Registration and Fee Required)

2:00 pm – 5:00 pm    Bocce Ball

BOCCE BALL COURTS, SILVERADO RESORT

Never played bocce? Not a problem! A professional instructor will be available.

Bocce is a ball sport belonging to the boules sport family, closely related to bowls and pétanque. Developed into its present form in Italy, it is currently played around Europe and is becoming more popular in the United States! In fact, Bocce is a popular pastime in the Napa Valley.

For full enjoyment of the Bocce experience, we recommend wearing comfortable walking shoes, a light sweater or jacket, and sunglasses.

EVENING ACTIVITIES FOR ALL MEMBERS AND REGISTERED SPOUSES/GUESTS

Photo Session for New Members, Board of Directors and Spouses/Guests (Attendance required)

5:00 pm SHARP! Location: Martini/Trefethen Room

President’s Cocktail Reception & Dinner Dance

EXECUTIVE SESSION AGENDA

SILVERADO RESORT, NAPA VALLEY, CALIFORNIA
Thursday, November 8, 2018
8:00 AM - First Executive Session

Call Meeting to Order
Establishment of a Quorum
Report of the Board of Directors
Report of the Secretary-Treasurer
Report of the Historian
Report of the Nominating Committee
Report of the Committee on Membership

Introduction of New Members

**Active Membership**
- David Adelson, MD, PhD
- Macrene Alexiades, MD, PhD
- Milan Anadkat, MD
- Victoria Holloway Barbosa, MD, MPH, MBA
- Bruce Brod, MD
- Susan Burgin, MD
- Jonathan Cotlier, MD
- Terrence Cronin, Jr., MD
- Dawn Davis, MD
- Julie Harper, MD
- Jeffrey A. Klein, MD, MPH
- Jo-Ann M. Latkowski, MD
- Markham Luke, MD, PhD
- Aimee Payne, MD
- Roberta Sengelmann, MD
- Jeffrey Sugarman, MD, PhD
- Jean Yuh Tang, MD, PhD

**International Membership**
- Eulalia Baselga, MD
- Claire Fuller, MD
- Dimitrios Rigopoulos, MD

- Portland, Oregon
- New York, NY
- St. Louis, MO
- Chicago, IL
- Downingtown, PA
- Boston, MA
- Los Angeles, CA
- Melbourne, FL
- Rochester, MN
- Birmingham, AL
- Newport Beach, CA
- New York, NY
- Gaithersburg, Maryland
- Philadelphia, PA
- Santa Barbara, CA
- Santa Rosa, CA
- Stanford, CA

Honorary Members
- Douglas Lowy, MD
- Howard Maibach, MD

Unfinished Business

New Business

Adjournment
Target Audience

This program is designed for dermatologists who are members of the American Dermatological Association.

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Eastern Virginia Medical School and the American Dermatological Association. Eastern Virginia Medical School is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation

Eastern Virginia Medical School designates this live activity for a maximum of 16.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Learning Objectives

1. Increase knowledge & competence of members through lectures and interaction.
2. Improve patient care through discussion and debates on current and controversial treatment options.
3. Analyze and critique latest research of members.
4. Utilize leader memberships to develop “think tank” analyses of various disorders and treatments.

Disclosure of Significant Relationships with Relevant Commercial Companies/Organizations

Eastern Virginia Medical School endorses the Standards for Commercial Support of the Accreditation Council for Continuing Medical Education and the Guidelines of the Association of American Medical Colleges that the sponsors of continuing medical education activities and the speakers at these activities disclose relevant relationships with commercial companies whose products or services are discussed in educational presentations.

For sponsors, relevant relationships include large research grants, institutional agreements for joint initiatives, substantial gifts, or other relationships that benefit the institution. For speakers, relevant relationships include receiving from a commercial company research grants, consultancies, honoraria and travel, other benefits, or having a self-managed equity interest in a company.
The following planning committee members or presenters have disclosed that they do not have any relevant relationships with commercial companies:

David Adelson, MD, MS; Victoria Holloway Barbosa, MD, MPH, MBA; Jeremy Bordeaux, MD; Bruce Brod, MD; Jeffrey Callen, MD; Valerie Callender, MD; Jaehyuk Choi, MD, PhD; David Cohen, MD; Scott Collins, MD; Jonathan Cotlier, MD; Edward Cowen, MD; Terrence Cronin, Jr., MD; Dawn Davis, MD; Mark Davis, MD; Jonathan Dyer, MD; Lawrence Eichenfield, MD; Janet Fairley, MD; Lindy Peta Fox, MD; Betty Kong, MD, PhD; Daniela Kroshinsky, MD; Jo-Anne Latkowski, MD; Markham Luke, MD, PhD; Seth Matarasso, MD; Llody Minor, MD; Oluwatobi Ogbechie-Godec, MD; Suzanne Olbricht, MD; Anthony Oro, MD; David M. Pariser, MD; Aimee Payne, MD; Mark Pittelkow, MD; Desiree Ratner, MD; Dimitrios Rigopoulos, MD; June Robinson, MD; Kanade Shinkai, MD; Daniel Siegel, MD; Arthur Sober, MD; Susan Swetter, MD; Bruce Thiers, MD; Kenneth Tomecki, MD; Marta VanBeek, MD; and Timothy Wang, MD.

The following planning committee members or presenters have disclosed that they do have relevant relationships with commercial companies:

Macrene Alexiades, MD, PhD
Grant/Research Support from Allergan, Candela, and Lumenis

Milan Anadkat, MD
Grant/Research Support from Veloce, Biogen, and InflamRX.
Consultant for Adgero, Bet Doctors and Teladoc.

Eulalia Baselga, MD

Wilma Bergfeld, MD
Consultant for Samumed, Incyte, Concert and Aclaris.

Eugene Bauer, MD
Major Stock Shareholder for Dermira, Inc.

Andrew Blauvelt, MD
Grant/Research Support from G/R - AbbVie, Aclaris, Akros, Allergan, Almirall, Amgen, Boehringer Ingelheim, Celgene, Dermavant, Dermira, Inc., Eli Lilly and Company, Galderma, Genentech/Roche, GlaxoSmithKline, Janssen, Leo, Meiji, Merck Sharp & Dohme, Novartis, Pfizer, Purdue Pharma, Regeneron, Sandoz, Sanofi Genzyme, Sienna Pharmaceuticals, Sun Pharma, UCB Pharma, Valeant, and Vida. Consultant for AbbVie, Aclaris, Akros, Allergan, Almirall, Amgen, Boehringer Ingelheim, Celgene, Dermavant, Dermira, Inc., Eli Lilly and Company, Galderma, Genentech/Roche, GlaxoSmithKline, Janssen, Leo, Meiji, Merck Sharp & Dohme, Novartis, Pfizer, Purdue Pharma, Regeneron, Sandoz, Sanofi Genzyme, Sienna Pharmaceuticals, Sun Pharma, UCB Pharma, Valeant, and Vida. Speakers list for Sanofi/Regeneron and Janssen.

CME DISCLOSURES

Sancy Leachman, MD  
Grant/Research Support from DermDetect, Myriad Genetics, and Castle Biosciences.

Mark Lebwohl, MD  
Grant/Research Support from Abbvie, Boehringer Ingelheim, Celgene, Eli Lilly, Incyte, Janssen/Johnson & Johnson, Leo Pharmaeuticals, Medimmune/AstraZeneca, Novartis, Pfizer, Sciderm, UCB, Inc., Valeant, and ViDac. Consultant for Allergan, Aqua, Arcutis, Inc., Boehringer-Ingelheim, Bristol-Myers Squibb, LEO Pharma, Menlo, Mitsubishi, Promius, and Theravance.

Moise Levy, MD  
Grant/Research Support from Pfizer. Consultant for Amryt, Pfizer, Regeneron, Promius and Castle Creek. Other financial/material support from Castle Creek.

Douglas Lowy, MD  
Other financial/material support from Merck, GlaxoSmithKline, Indian Immunologicals Ltd., Shantha, Pax Vax, Acambis Inc. and OSK.

Elizabeth McBurney, MD  
Grant/Research Support from Soleginix. Speakers list for Actelion.

Martin Mihm, MD  
Consultant for Novartis, Alnylam and MelaSciences. Other Financial/On the Advisory Board for BioCoz and Caliber ID.

Joyce Rico, MD  
Consultant for Arcutis, Premier-Research, Botanix, Escalier, Sebacia and NobelPharma.

Roberta Sengelmann, MD  
Other financial/material support from Advisory Board for Merz.
CME DISCLOSURES

Jerry Shapiro, MD

Robert Silverman, MD
Speakers list for Pfizer.

Jeffrey Sugarman, MD

Jean Tang, MD
Grant/Research Support from Abeona. Major Stock Shareholder for Pellepharm.

James Taylor, MD

Hensin Tsao, MD, PhD
Grant/Research Support from Relay Therapeutics, Asana, NIH, DOD and Melanoma Research Alliance. Consultant for Worldcare Clinic, Epiphany Dermatology and Dermavant.

Victoria Werth, MD
Grant/Research Support from Celgene, Janssen, Pfizer, Biogen, Gilead, Corbus Pharmaceuticals, Genentech, AstraZeneca. Consultant for Celgene, Medimmune, Resolve, Neovcs, Genetech, Idera, Octapharma, BSL Behring, Janssen, Lilly, Pfizer, Biogen, BMS, Gilead, Amgen, Medscape, Nektar, Incyte, EMD Sorona, CSL Behring.

Christopher Zachary, MD
Consultant for Sciton, Soliton and Allergan.

Andrea Zaenglein, MD
Grant/Research Support from Dermavant, Pfizer, Sun/Ranbaxy and Incyte. Consultant for Sun/Ranbaxy, Cassiopeia and Ortho Dermatologies.

All potential conflicts of interest have been resolved.
NEW MEMBER BIOSKETCHES

David Adelson, MD, MS
City of Residency: Portland, Oregon
Medical School: Emory University School of Medicine
Internship: University of Washington
Residency: Emory University School of Medicine
Fellowship: Current Appointment: Associate Professor, Department of Dermatology; Oregon Health and Science University, Chief, Dermatology Service, Portland VA Healthcare System
Area of Interest: Health care Delivery, Improvement Science, Teledermatology

Macrene Alexiades, MD, PhD
City of Residency: New York, NY
Medical School: Harvard Medical School
Internship: Lenox Hill Hospital
Residency: NYU
Current Appointment: Yale University School of Medicine, Associate Clinical Professor, Yale New Haven Hospital, West Haven VA Hospital & Lenox Hill Hospital North Well Health, Adjunct Professor, Siggrou Hospital, University of Athens, Greece
Area of Interest: Lasers, PDT, Woman’s Health Devices

Milan Anadkat, MD
City of Residency: St. Louis, MO
Medical School: Northeastern Ohio Universities College of Medicine
Internship: Barnes-Jewish Hospital/Washington University in St. Louis
Residency: Barnes-Jewish Hospital /Washington University in St. Louis
Fellowship: Clinical Trials-Fellowship Barnes-Jewish Hospital/Washington University in St. Louis
Current Appointment: Associate Professor, Dermatology, Washington University School of Medicine; Residency Program Director, Dermatology, Washington University School of Medicine
Area of Interest: Oncodermatology; Complex Medical Dermatology; Resident Education

Victoria Holloway Barbosa, MD, MPH, MBA
City of Residency: Chicago, IL
Medical School: Yale
Internship: Massachusetts General Hospital
Residency: Yale
Fellowship: RWJ Clinical Scholars Program of Johns Hopkins
Current Appointment: Assistant Professor of Dermatology, Rush University
Area of Interest: Medical Dermatology, Hair & Scalp Disorders, Skin of Color, Cosmetics

Eulalia Baselga, MD
City of Residency: Barcelona, Spain
Medical School: Universitat Autònoma de Barcelona
Internship: Hospital de la Santa Creu I Sant Pau, Barcelona
Residency: Hospital de la Santa Creu I Sant Pau, Barcelona
Fellowship: Pediatric Dermatology, Medical College of Wisconsin
Current Appointment: Director, Pediatric Dermatology, Hospital de la Santa Creu I Sant Pau, Associate Professor Universitat Autònoma de Barcelona
Area of Interest: Pediatric Dermatology, and in particular hemangiomas and vascular lesions, and atopy

Bruce Brod, MD
City of Residency: Downingtown, PA
Medical School: University of Pennsylvania Perelman School of Medicine
Internship: Rhode Island Hospital Brown University - Internal Medicine
Residency: University of Pittsburgh - Dermatology
Fellowship:
Current Appointment: Clinical Professor of Dermatology University of Pennsylvania Perelman School of Medicine
Area of Interest: Allergic Contact Dermatitis, Pediatric Allergic Contact Dermatitis
NEW MEMBER BIOSKETCHES

Susan Burgin, MD
City of Residency: Boston, MA
Medical School: University of Witwatersrand, Johannesburg, South Africa
Internship: Veterans Affairs Medical Center, New York, NY
Residency: Albert Einstein College of Medicine, Bronx, New York
Current Appointment: Attending Physician, Beth Israel Deaconess Medical Center, Assistant Professor, Harvard Medical School
Area of Interest: Medical dermatology, medical education, rare dermatoses

Jonathan Cotliar, MD
City of Residency: Los Angeles, CA
Medical School: University of Kentucky
Internship: Loyola University Medical Center
Residency: UCLA David Geffen School of Medicine, Internal Medicine and Dermatology
Fellowship: UCLA (K30 Clinical Research Fellowship)
Current Appointment: Director of Inpatient Dermatology Harbor UCLA Medical Center
Area of Interest: Complex medical dermatology, inpatient dermatology, oncodermatology, GVHD

Terrence Cronin, Jr., MD
City of Residency: Melbourne, FL
Medical School: Bowman Gray Medical School
Internship: North Carolina Baptist Hospital
Residency: University of Miami School of Medicine, Department of Dermatology & Cutaneous Surgery
Current Appointment: Associate Professor University of Miami: School of Medicine - Dermatology
Area of Interest: Skin cancer, Mohs Surgery, tattoos, advocacy

Dawn Davis, MD
City of Residency: Rochester, MN
Medical School: The University of Missouri, Columbia, Missouri
Internship: Pediatric and Adolescent Medicine, Mayo Clinic School of Graduate Medical Education
Residency: Pediatric and Adolescent Medicine Mayo Clinic School of Graduate Medical Education. Dermatology, Mayo Clinic School of Graduate Medical Education
Fellowship: Mayo Foundation Scholar in Pediatric Dermatology; Patricia Witman MD and Ronald Hanson, MD
Current Appointment: Associate Professor of Dermatology and Pediatrics, Mayo Clinic Rochester
Area of Interest: Pediatric Dermatology

Claire Fuller, MD
City of Residency: London, UK
Medical School: Cambridge University, UK /St Thomas' Hospital, London UK
Internship: St. Thomas’ Hospital, London, UK
Residency: King's College Hospital, London, UK
Current Appointment: Service Director and Consultant Dermatologist, Chelsea and Westminster Hospital NHS Foundation Trust, London, UK. Chair of International Foundation for Dermatology
Area of Interest: General and Medical dermatology, vulval dermatology, Global Health dermatology, Infectious and Tropical Health Dermatology

Julie Harper, MD
City of Residency: Birmingham, AL
Medical School: University of Missouri-Columbia School of Medicine
Internship: University of Missouri-Columbia Internal Medicine
Residency: University of Missouri-Columbia Dermatology Residency
Current Appointment: Clinical Associate Professor - Dermatology UAB
Area of Interest: General Dermatology, Cosmetic Dermatology

Jeffrey A. Klein, MD, MPH
City of Residency: Newport Beach, CA
Medical School: University of California, San Francisco
Internship: University of California, Los Angeles, Internal Medicine
Residency: University of California, Irvine, Dermatology
Fellowship: NIH Research Fellowship Clinical Pharmacology, UCSF
Current Appointment: Clinical Professor, Dermatology, UCI
Area of Interest: Dermatologic Clinical Pharmacology (local anethesia)

Jo-Ann M. Latkowski, MD
City of Residency: New York, NY
Medical School: New York University School of Medicine
Internship: Beth Israel Hospital, Boston, MA
Residency: New York University
Current Appointment: Associate Professor and Residency Program Director of Dermatology, New York University School of Medicine; Chief of Dermatology, Manhattan VA Hospital
Area of Interest: Cutaneous Lymphoma, Complex Medical Dermatology
NEW MEMBER BIOSKETCHES

Markham Luke, MD, PhD
City of Residency: Gaithersburg, Maryland
Medical School: Johns Hopkins University School of Medicine
Internship: Johns Hopkins Bayview Internal Medicine Residency
Residency: Washington University, St. Louis - Dermatology
Fellowship: NIH/NCI Dermatology/Immunodermatology Fellowship Council for Excellence in Government Fellow
Current Appointment: U.S. Food and Drug Administration Supervisory Medical Officer and Director Division of Therapeutic Performance, OGD - Adjunct Associate Professor, Dept. of Dermatology, Uniformed Services Univ of Health Regulatory Dermatology
Area of Interest: Regulatory Dermatology, Dermatopharmacology

Aimee Payne, MD
City of Residency: Philadelphia, PA
Medical School: Washington University School of Medicine
Internship: Pennsylvania Hospital
Residency: Hospital of the University of Pennsylvania
Fellowship: Hospital of the University of Pennsylvania
Current Appointment: Associate Professor, University of Pennsylvania
Area of Interest: Autoimmune blistering diseases, biomedical research

Dimitrios Rigopoulos, MD
City of Residency: Athen, Greece
Medical School: National and Kapodistrian University of Athens
Internship: Sygros Hospital, Athens, Greece
Residency: Sygros Hospital, Athens, Greece
Current Appointment: Professor and Chair of First Department of Dermatology and Venereology, Sygros Hospital, Athens, Greece
Area of Interest: Nail Disease Psoriasis, Acne, Rosacea

Roberta Sengelmann, MD, FACMS
City of Residency: Santa Barbara, CA
Medical School: New York Medical College
Internship: Internal Medicine - University of Iowa Hospitals & Clinics
Residency: Dermatology - University of Texas Health Science Center/MD Anderson Cancer Center
Fellowship: Mohs/Advanced Dermatologic Surgery with R. Stan Taylor, MD - University of Texas Southwestern Medical Center
Current Appointment: Santa Barbara Skin Institute - Dermatologic Surgeon, President & Owner; UC Irvine Department of Dermatology, Associate Clinical Professor (Volunteer Faculty)
Area of Interest: Mohs Surgery, Cutaneous Reconstruction; Minimally-Invasive Facial Rejuvenation - art and science

Jeffrey Sugarman, MD, PhD
City of Residency: Santa Rosa, CA
Medical School: UC San Diego
Internship: Seattle Childrens Hospital University of Washington
Residency: Pediatrics - Seattle Childrens Hospital, Univ. of Washington, Dermatology - UC San Francisco
Fellowship: Pediatric Dermatology:UC San Francisco
Current Appointment: UC San Francisco Dept. of Dermatology and Community and Family Medicine
Area of Interest: Pediatric Dermatology, Genetic Skin Disease

Jean Yuh Tang, MD, PhD
City of Residency: Stanford, CA
Medical School: Stanford
Internship: Santa Clara Valley
Residency: Stanford
Fellowship: UCSF KL2 Clinical Scholars Program
Current Appointment: Associate Professor, Stanford
Area of Interest: Genetic skin diseases, EB and Gorlin Syndrome
2018 ADA AWARDEES

YOUNG LEADERSHIP AWARD RECIPIENT

Jaehyuk Choi, MD, PhD
“What the Genetics of T Cell Cancers Can Tell Us About the Immune System During Health and Disease”

The skin is an immune organ housing numerous immune cells including B and T. Unchecked activation of these cells can lead to autoinflammatory diseases and cancers. My lab has utilized genomics to identify causal mutations that drive these diseases. We will discuss the genetic basis of cutaneous B and T cell lymphomas as well as the genetic mutations that drive the Th2 proliferative disorder, the lymphocytic variant of hypereosinophilic syndrome. These finding have improved our understanding of these diseases and uncovered heretofore underappreciated therapeutic targets. We will describe several vignettes of our bedside-to-bench-to-bedside pipeline that is leading to investigator-initiated clinical trials.

RESIDENT RESEARCH AWARD RECIPIENTS

Betty Kong, MD, PhD
“The Effect of Market Competition on the Cost of Topical Medications”

Topical medications are often the first line of treatment in dermatology and the exorbitant price increases of recent years have deeply affected many of our patients. This study assessed the relationship between level of market competition through entry of generic drugs and their effects on topical product price increases. Topical medications were identified in the Medicare Part D Prescriber Public Use file and the Therapeutic Equivalence Evaluation to track drug spending and active drug approvals, respectively. Total spending on topical medications increased from $1.39 billion to $2.23 billion from 2011 to 2015, representing a 61% increase. Products with less than or equal to four net approvals experienced a larger percent change in price (108%) compared to product categories with five or more net approvals (8%). Our results suggest that entry of new generics onto the market tempers price increases. In addition, categories of drugs that have fewer new entries, even when several options already exist in the marketplace, demonstrate significant price increases. Legislative efforts should focus on new policy that increases healthy competition in the marketplace.

Oluwatobi Ogbechie-Godec, MD, MBA
“The Diminishing Presence of Dermatologists in the Care of Hospitalized Medicare Patients”

Background: Improved outpatient regimens and decreased insurance reimbursements precipitated a decline in inpatient dermatology consultations in the United States. Anecdotes of the persistent marginalization of these services have surfaced, however, the national scope of shifting practice patterns remains unknown.

Objective: To characterize trends in dermatologists’ inpatient services for the Medicare fee-for-service population over a 5-year period (2012-2016).

Methods: Using the U.S. Medicare Provider Utilization and Payment Data, aggregated reimbursement for Medicare Part B, we assessed the number of dermatologists (billing for at least 10 encounters per unique inpatient service), total inpatient providers, reimbursed services, payments provided, and geographic location of inpatient services.

Results: During the 5-year period, unique inpatient dermatologists declined by 26.1% from 402 (2012) to 297 (2016) and their inpatient services declined by 33.8%. However, their average Medicare reimbursement was stable at $77.02 (2012) and $78.00 (2016). Total providers billings for Medicare inpatient consultations increased by 4.9% during the same period.

Discussion: Inpatient dermatologic consultations have declined nationally compared to overall inpatient provider services, possibly exacerbating previously-described workforce shortages. Reimbursement is unlikely to fully explain these trends. Further exploration of physician, hospital, and policy-related factors is warranted.
ACKNOWLEDGEMENTS

The American Dermatological Association and the American Dermatological Association Research and Education Fund gratefully acknowledge the following members for their voluntary contributions during the past year.
