<b>7:30 am</b>	<b>Opening Remarks</b> <i>Robert Brodell, MD, Secretary-Treasurer</i>	
<b>7:45 am</b>	<b>Induction of New Members: Active, Associate, and International Honorary Members</b> <i>David Cohen, MD, President</i>	
<b>8:15 am</b>	<b>In Memoriam</b> <i>David Pariser, MD, Historian</i>	
<b>8:25 am</b>	<b>PRESIDENTIAL ADDRESS: Pivoting the ADA for the Future</b> <i>David Cohen, MD, President</i>	
<b>8:55 am</b>	<b>AAD Update</b> <i>Henry Lim, MD, AAD President</i>	
<b>9:10 am – 10:30 am</b>	<b>FIRST SCIENTIFIC SESSION</b>	<b>GRAND BALLROOM</b>
<b>9:10 am – 10:30 am</b>	<b>HEALTHCARE POLICY SESSION</b> <i>David Cohen, MD, Moderator</i>	
<b>9:10 am</b>	<b>Public Health and Dermatology - Preventing Skin Cancer</b> <i>Boris Lushniak, MD</i>	
<b>9:35 am</b>	<b>Q &amp; A</b>	
<b>9:50 am</b>	<b>FDA and Dermatologic Public Health: From Medical Device Regulation to Drug Access – The Juxtaposed Role of Good Science and Good Regulation</b> <i>Markham Luke, MD, PhD</i>	

Markham Luke, MD, PhD, is the Director of the Division of Therapeutic Performance in the Office of Research and Standards at the FDA's Office of Generic Drugs, which facilitates generic drug development through research and establishes standards to ensure therapeutic equivalence of new generic drugs. His interests include clinical study design, endpoints assessment (including patient-reported outcomes) for medical, surgical, and aesthetic products, and medical product development for rare diseases and special populations. From 2008 to 2016, he was Chief Medical Officer and Deputy Office Director in the Office of Device Evaluation (ODE), Center for Devices and Radiological Health. He was also Center Liaison for Emergency Preparedness and senior champion for regulation of UV indoor tanning devices. Born and raised in New York City, he majored in biochemistry at New York University, obtained his MD degree at Johns Hopkins University, and completed his PhD under Professor Donald S. Coffey in Pharmacology and Molecular Sciences. He was a dermatology resident at Washington University/Barnes Hospital, St. Louis, MO. He served as PHS Fellow and Clinical Associate for Dermatology at the National Cancer Institute, NIH, then as Medical Officer reviewer in the FDA Office of New Drugs. In 2001 he became Lead Medical Officer for dermatology at the FDA. He currently serves as an attending at Bethesda National Naval Medical Center (now Walter Reed Medical Center), instructor at the Uniformed Services University of the Health Sciences, and as a medical consultant for the NIH.

**10:15 am Q & A**

**10:30 am – 10:55 am MEMBER BREAK**

**BALLROOM FOYER**

# Program

**THURSDAY, July 20, 2017** *(continued)*

**10:55 am – 12:20 pm**

**SECOND SCIENTIFIC SESSION**

**GRAND BALLROOM**

**10:55 am – 11:15 am**

**YOUNG LEADERSHIP AWARD AND LECTURE**

*Introduction by Amy Paller, MD*

**Atopic Dermatitis in Adults: Not Just Big Kids**

*Jonathan Silverberg, MD, PhD, MPH*

Jonathan I. Silverberg, MD, PhD, MPH, is Assistant Professor of Dermatology, Medical Social Sciences and Preventive Medicine at Northwestern University Feinberg School of Medicine in Chicago, IL. He is founder and Director of Northwestern Medicine's Multidisciplinary Eczema Center and Director of the patch testing clinic at Northwestern Memorial Hospital. He received his doctorate in neuroimmunology, medical degree, and Master of Public Health degree in biostatistics and epidemiology from the State University of New York Downstate Medical Center in Brooklyn, where he also completed his internship in internal medicine. He did his residency training in dermatology at St. Luke's-Roosevelt Hospital Center and Beth Israel Medical Center in New York, NY.

Dr. Silverberg's clinical subspecialty is inflammatory skin disease, particularly atopic and contact dermatitis. His research interests include dermato-epidemiology, health services research, patient-reported outcomes, comorbidities and burden of inflammatory skin disease and evidence-based dermatology. His publications include over 200 peer-reviewed articles, abstracts, books and book chapters. He has been a local and/or national principal investigator for numerous clinical trials for novel treatments in atopic dermatitis and other inflammatory disorders. He received the inaugural Rajka Award from the International Society for Atopic Dermatitis in 2014.

**11:15 am**

**Q & A**

**11:25 am – 12:20 pm**

**MULTIDISCIPLINARY SESSION I: Challenging Cases in Medical Dermatology (ARS)**

*Session Moderator: Lindy Peta Fox, MD*

**Panel Speakers:**

*Lindy Peta Fox, MD*

*Jeffrey Callen, MD*

*Mark Davis, MD*

*Rosalie Elenitsas, MD*

**12:10 pm**

**Q & A**

**12:20 pm**

**Healthcare in the 21st Century**

*Kathleen Sebelius, MPA*

*Introduction by David Cohen, MD, President*

Kathleen Sebelius is one of America's foremost experts on national and global health issues, human services, and executive leadership. As CEO of Sebelius Resources LLC, she provides strategic advice to companies, investors, and non-profit organizations. Sebelius serves on the Board of Directors of Dermira, Grand Rounds, Hampton Creek, Humacyte, the Kaiser Family Foundation, and Myovant Sciences. She co-chairs the Aspen Institute Health Strategy Group and serves on advisory boards for the Dole Institute of Politics, Solera Health, Out Leadership, and the Estée Lauder Foundation. From April 2009 through June 2014, Sebelius served in President Barack Obama's cabinet as the 21st Secretary of the Department of Health and Human Services, where, she worked to pass and implement the Affordable Care Act. At HHS, Sebelius managed 11 operating agencies, 90,000 employees in 50 countries, and a \$1 trillion budget. Forbes named Sebelius one of the 100 most powerful women in the world. Having served as Governor of Kansas from 2003 to 2009, Sebelius is the only daughter of a governor to be elected governor in American history; her late father, John Gilligan, was Governor of Ohio. Time magazine named her one of America's Top Five Governors. Previous elected offices include two terms as the Kansas Insurance Commissioner and four terms in the Kansas Legislature. Sebelius earned a Master of Public Administration degree from the University of Kansas and a Bachelor of Arts degree from Trinity Washington University. She is married to Gary Sebelius, a federal magistrate judge. They have two married sons, Ned and John, and two grandsons, George and Hugh.

**11:40 am**

**Q & A**

**11:55 am**

**Changing Landscape of Compounding Regulations**

*Natasha Pattanshetti, JD, MPH*

*Introduction by Jeffrey Callen, MD*

Natasha Pattanshetti is the Manager of Regulatory Policy with the American Academy of Dermatology Association in the Washington, DC office. Her work focuses on federal regulatory actions affecting the practice of dermatology and advocacy in the interest of dermatologists and their patients. She is a graduate of the Case Western Reserve University School of Law and has a Master of Public Health from the Case Western Reserve University School of Medicine. She enjoys watching college football, especially her alma mater, the University of Michigan, and playing with her rescue dog Belle.

**12:35 pm**

**From Institute of Medicine to National Academy of Medicine:  
Serving as a Trusted Advisor to Health and Medicine**

**GRAND BALLROOM**

*Victor Dzau, MD*

*Introduction by Eugene Bauer, MD*

Victor Joseph Dzau, MD, is President of the National Academy of Medicine. Born in Shanghai and reared in Hong Kong, he is an internationally acclaimed leader and scientist whose work has improved health care in the United States and globally. Under his direction, the National Academy of Medicine/Institute of Medicine advances research and improves health by providing objective, evidence-based guidance on critical issues. His foresight in translation of research into diagnostic methods, medicines, and creative solutions for human health issues is a great asset to the Academies and to the public at large. His own research laid the foundation for development of angiotensin-converting-enzyme (ACE) inhibitors used globally to treat high blood pressure and congestive heart failure. He pioneered gene therapy for vascular disease and was the first to introduce DNA decoy molecules to block transcription as gene therapy in humans. He is a member of the board of directors of the Singapore Health Services, a former member of the Advisory Committees to the Director of U.S. National Institutes of Health and the International Review Board of the Canadian Institute for Health Research. He chaired NIH's Cardiovascular Disease Advisory Committee and is past chair of the Association of Academic Health Centers. In 2011, Dzau led a partnership among Duke Medicine, the World Economic Forum, and McKinsey & Co. to establish the International Partnership for Innovative Healthcare Delivery.

Prior to becoming President of the National Academy of Medicine, Dr. Dzau served as Chancellor for Health Affairs and President & CEO of Duke University Medical Center. Earlier academic appointments include serving as the Hersey Professor of the Theory and Practice of Physic (Medicine) at Harvard Medical School, Chair of Medicine and Director of Research at Brigham and Women's Hospital, and Arthur Bloomfield Professor and Chair of Medicine at Stanford University. He has received numerous awards including the Max Delbrück Medal from Humboldt University Charité and Max Planck Institute, the Gustav Nylin Medal from the Swedish Royal College of Medicine, the Polzer Prize from the European Academy of Sciences & Arts, the Ellis Island Medal of Honor, and the Distinguished Scientist Award of the American Heart Association. Dzau received his undergraduate and medical degrees from McGill University.

**Harnessing the Internet of Healthy Things: How Connected Health Can Advance Dermatology**

*Joseph Kvedar, MD*

*Introduction by Hensin Tsao, MD, PhD*

Joseph C. Kvedar, MD, Vice President, Connected Health, Partners HealthCare, is creating a new model of healthcare delivery, developing innovative strategies to move care from the hospital or doctor's office into the day-to-day lives of patients. Under Dr. Kvedar's leadership, Partners Connected Health is helping providers and patients better manage chronic conditions, maintain health and wellness, and improve adherence, engagement and clinical outcomes. He is also a board certified dermatologist and Associate Professor of Dermatology at Harvard Medical School.

Dr. Kvedar is the author of [The Internet of Healthy Things](#) describing how everyday objects will capture and use real-time biometric data to ultimately change behavior to improve health. Dr. Kvedar is internationally recognized for his leadership and vision in the field of connected health and has authored over 100 publications on the subject. His popular cHealth Blog provides his insights and vision for connected health. He contributes to a number of publications including *the Journal of the American Academy of Dermatology*, *JAMA Dermatology* and *the Journal of Investigative Dermatology*. Dr. Kvedar is a past Chair of the American Academy of Dermatology (AAD) Task Force on Telemedicine.

**11:35 am**

**Drug/Device Discovery/Innovation Transfer - From Disclosure to Patent to License**

*Rox Anderson, MD, PhD*

**12:05 pm**

**Development of Novel Drugs for Neoplastic Diseases**

*Michael Kauffman, MD, PhD*

Michael G. Kauffman, MD, PhD, co-founded Karyopharm with Dr. Sharon Shacham in 2008 and has served as President and Chief Executive Officer since January 2011, as Chief Medical Officer since December 2012, and as a director since 2008. Prior to joining Karyopharm, he was Chief Medical Officer of Onyx Pharmaceuticals Inc., after it acquired Proteolix Inc., where he had been Chief Medical Officer since 2008. At Proteolix, Dr. Kauffman led the development of Kyprolis (carfilzomib), a novel proteasome inhibitor approved for refractory myeloma by the FDA in July 2012. Prior to joining Onyx Pharmaceuticals, Dr. Kauffman was an operating partner at Bessemer Venture Partners, where he led investments in biotechnology companies and served as President and Chief

Executive Officer of Epix Pharmaceuticals, Inc., a biopharmaceutical company that underwent liquidation proceedings in 2009. He led the merger of Predix Pharmaceuticals, a private biopharmaceutical company focused on G protein-coupled receptors (GPCR)s, and Epix Pharmaceuticals, where he oversaw the discovery and development of four new clinical candidates and led collaboration transactions with Amgen and GlaxoSmithKline. Dr. Kauffman served as Vice President, Clinical, at Millennium Pharmaceuticals, Inc., where he led the Velcade development program. Dr. Kauffman held a number of senior positions at Millennium Predictive Medicine, Inc., where he led the discovery and development of novel molecular diagnostics for major cancers (including melanoma) and led transactions with Becton-Dickenson and Bristol Myers Squibb. Early in his career, Dr. Kauffman led the clinical development of anti-CD40L antibodies in autoimmune and inflammatory diseases at Biogen Idec, Inc. and acted as the main medical advisor to the Biogen business development group. Dr. Kauffman currently serves on the board of directors and compensation committee of Verastem, Inc., a public biopharmaceutical company, and on the board of directors and the compensation committee of Metamark Genetics, Inc., a private molecular diagnostics company. Dr. Kauffman received his B.A. in Biochemistry from Amherst College, his M.D. and PhD from Johns Hopkins Medical School, and trained in internal medicine and rheumatology at Beth Israel (now Beth Israel Deaconess Medical Center) and Massachusetts General Hospitals. He is board certified in internal medicine.

**ISABELLA STEWART GARDNER MUSEUM (Pre Registration and Fee Required)**    Bus departs promptly at 2:45 SHARP from Hotel Lobby

The Isabella Stewart Gardner Museum or Fenway Court, as the museum was known during Isabella Stewart Gardner's lifetime, is a museum in the Fenway-Kenmore neighborhood of Boston, Massachusetts, located within walking distance of the Museum of Fine Arts and near the Back Bay Fens. The museum houses an art collection of world importance, including significant examples of European, Asian, and American art, from paintings and sculpture to tapestries and decorative arts. In 1990, thirteen of the museum's works were stolen; the high-profile crime remains unsolved and the artwork's location is still unknown.

## AMERICAN DERMATOLOGICAL ASSOCIATION

### **Target Audience**

This program is designed for dermatologists who are members of the American Dermatological Association.

### **Accreditation**

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Eastern Virginia Medical School and the American Dermatological Association. Eastern Virginia Medical School is accredited by the ACCME to provide continuing medical education for physicians.

### **Credit Designation**

Eastern Virginia Medical School designates this live activity for a maximum of 12.75 *AMA PRA Category 1 Credits*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

### **Learning Objectives**

1. Increase knowledge & competence of members through lectures and interaction.
2. Improve patient care through discussion and debates on current and controversial treatment options.
3. Analyze and critique latest research of members.
4. Utilize leader memberships to develop "think tank" analyses of various disorders and treatments.

### **Disclosure of Significant Relationships with Relevant Commercial Companies/Organizations**

Eastern Virginia Medical School endorses the Standards for Commercial Support of the Accreditation Council for Continuing Medical Education and the Guidelines of the Association of American Medical Colleges that the sponsors of continuing medical education activities and the speakers at these activities disclose relevant relationships with commercial companies whose products or services are discussed in educational presentations.

For sponsors, relevant relationships include large research grants, institutional agreements for joint initiatives, substantial gifts, or other relationships that benefit the institution. For speakers, relevant relationships include receiving from a commercial company research grants, consultancies, honoraria and travel, other benefits, or having a self-managed equity interest in a company.

The following planning committee members or presenters have disclosed that they do not have any relevant relationships with commercial companies: Murad Alam, MD, MBA; Andrew Alexis, MD; Wilma Bergfeld, MD; Christopher Bunker, MD; Jeffrey Callen, MD; Mark Davis, MD; Victor

# Award Recipients

## YOUNG LEADERSHIP AWARD RECIPIENT

**Jonathan I Silverberg, MD, PhD, MPH**

Atopic dermatitis (AD) is an inflammatory skin disorder that commonly affects adults. There are a number of key differences of epidemiology, genetics, morphology, distribution, clinical course, comorbidities, symptom-burden, and response to topical and systemic treatment of AD in adults compared with children. Recent epidemiologic studies have suggested that more children with AD have persistence in adulthood than previously reported, and there is also more adult-onset/recurrence of AD. We recently found distinct phenotypes and disease triggers in those with adult-onset AD. Adult AD has less of an association with FLG null mutations and has key immunologic differences compared with childhood AD. Recognition of these differences may improve the diagnosis and management of AD in adults.

## ADA RESIDENT RESEARCH AWARDEE

**Namita Jain, MD, MPH**

*Promoting Early Detection of Melanoma during the Mammography Experience*

*Introduction:* Invasive melanoma is the seventh most common cancer in women. Routine primary care mammography screening may serve as an opportunity to promote early detection of melanoma by increasing awareness and introducing skin self-examinations (SSE).

*Methods:* A pilot and feasibility study was designed to promote SSE in women receiving screening mammograms at Northwestern Medicine. The study entailed development of SSE materials, delivery of the educational program, and assessment of program effectiveness.

*Results:* Eighty-six percent of women with scheduled mammograms participated in the study (N=560). Among participants, 68% noticed the SSE information in the changing room. Of women who noticed the information, 78% thought the information was applicable, 68% identified with at least one risk factor for melanoma, and 20% checked her skin.

*Discussion:* Combining skin cancer screening with breast cancer screening is a novelty. A substantial proportion of women interviewed noticed the SSE information and identified with at least one risk factor for melanoma. Incorporating an educational intervention in the setting of screening mammography is a feasible way to increase awareness in a large proportion of at-risk women.
